

EDUC 837 : Research Seminar

In this course, students will conduct practitioner research for their master's Thesis. Students will be taking this course concurrently with their practicum, which will be the site of their research. Through coursework, students will be supported with refining data collection tools, collecting and analyzing qualitative and/or quantitative data. Students learning will be guided by a series of research memos that students will write in this course. In keeping with the rich tradition of practitioner research (often a deeply collaborative process), students will work in small inquiry groups throughout this course.

Core Course
