

Broad Clinical Exposure and Cohesive Training

- On-campus veterinary Small Animal Clinic and Large Animal Resource Facility. Provides students with hands-on training and experience often not seen until the final year of veterinary medical education.
- St. George's University state-of-the-art teaching and laboratory facilities provide students with exemplary experiences in preparation for clinical training rotations and for general veterinary practice following graduation.
- Clinical affiliations with 25 US veterinary schools, two Canadian schools, two UK veterinary programs, as well as one each in Ireland, Australia, and the Netherlands, offer students the option to complete their clinical studies in the world's top academic environments.
- SGU students are well prepared for licensing examinations, achieving a 91 percent pass rate on the North American Veterinary Licensing Examination (NAVLE) over the last five years.*
