

Basic Sciences Comprehensive Exam 2 (BSCE 2)

The BSCE 2 exam is designed to measure students' requisite knowledge of Year 1 and Year 2 content and is the major component of the Basic Sciences Foundation of Clinical Reasoning (BSFCR) final course grade in Term 5, as outlined in the course syllabus. A comprehensive BSFCR midterm examination gives students feedback on their strengths and weaknesses of the Year 1 and Year 2 content, to help them prepare for the BSCE 2.
