

Registration Check-In

To register for Terms 1 – 5, students must have financial clearance, academic clearance and health insurance. Students who are not in good financial standing are required to work with the [Office of Student Finances](#) to resolve their outstanding balances. If students are recipients of federal and/or alternate student loans, all required documentation must be received before financial clearance is provided.

Students in dual degree programs (MD/MSc, MD/MBA or MD/MPH) need clearance from their Graduate Studies Program advisor; they will then register for both programs simultaneously, if applicable. Students should not proceed to Grenada without financial and academic clearance.

More information on registration, billing and late payments is in the [General Student Manual](#).
