

ACCT 302 : Accounting Placement

Under faculty guidance and supervision, students intern in a professional workplace. The purpose of this placement is to allow students the opportunity to put into practice the technical knowledge gained in the university setting and to obtain practical accounting experience in the workplace. Students will also develop decision-making skills in a practical setting, as well as contribute to the accounting and management function of the workplace. Students will present a report to their faculty supervisor describing their learning experiences and evaluating their contributions. In addition, students will make oral presentations to fellow students and colleagues in the Business program.
