

Examination Accommodations

Since examination rosters are formed ahead of time by OIA any examination accommodations must be delivered to the Dean of Basic Sciences Office from the Office of Accommodations 2 weeks prior to any examination. Therefore, students must apply for accommodations early so that the accommodations notice can be received and can be exercised. Any request that arrives late (i.e. less than 2 weeks prior to an examination, for all written, practical and clinical examinations) will not be honored at the upcoming examination, but will be honored for the next examination in the term, if approved.
