- The Clinical Student Administrators (CSA) are responsible for placing clinical students into core and elective clerkships, managing, and ensuring clinical students are scheduled to meet graduation requirements. The CSA team provides support, guidance and conveys SGU offered resources to overcome student issues and promote student success. Please refer to your schedule under the contacts tab in [Clerkship Management](#) for your Clinical Student Administrator assignment.
- The Program Coordinator is responsible for ensuring requisite documentation including, letters of good standing, health assessments/immunizations, transcripts, USMLE scores, clinical assessments and any clerkships applications associated in the clinical sciences program are efficiently processed within designated timelines. They further assure that the information on requisite documentation is accurate, complete, and meets University and hospital requirements.
