

Departmental Human Resource Requirements

Human resource needs for faculty and staff in each Department are determined jointly by the department chair and the senior associate dean of basic sciences or senior associate dean of clinical studies, as appropriate.

Vacant employment positions are advertised under the Employment Opportunities link in the My Account tab of the SGU homepage. Additional external advertising is arranged by the Talent Acquisition within the Office of Human Resources. The procedure for recruitment of faculty in the basic sciences is as per the policies listed here [Human Resources Portal](#).
