

# Educational Commission for Foreign Medical Graduates

Medical students who are considering the practice of medicine in the United States should familiarize themselves with the components of licensure for students/physicians who have attended foreign medical schools. There is now in place a single, three-step examination process for achieving medical licensure in the United States:

1. USMLE Step 1
2. USMLE Step 2—Clinical Knowledge (CK—Written Exam)
3. USMLE Step 3

USMLE Step 1 is a test of basic science knowledge and is usually taken at the completion of the Basic Medical Sciences curriculum. Step 2 is a two-part examination given during the final year of the Medical Sciences. Clinical Knowledge is a written examination. Spoken English is also assessed at this time. USMLE Step 3 is administered after graduation by individual state licensing boards. Information on the scheduling of and application for these examinations is distributed to students in a timely fashion during their medical programs. More information and a pamphlet can be obtained from:
