

# Annual Requirements

After starting clinical training, and in order to continue, students will be required to submit evidence of:

1. Tuberculosis screening every eleven months by completing a self-assessment form annually which is sent to student.
2. Influenza vaccination every year. The vaccine changes annually and is only considered valid for influenza season. A new vaccine is usually made available in September of every year. Students should be vaccinated before November<sup>1</sup>, keep written proof of vaccination and be prepared to present it to hospitals.
