

ANPH 506 : Anatomy I

The course consists of a series of lectures on the general and systemic anatomy of the carnivores, the dog and cat. The lecture hall discussions (didactic lectures) will be accompanied by dissection of the cadavers in the laboratory. The laboratory sessions include thorough, step by step dissection of the dog and cat cadavers. Whenever necessary, appropriate clinical references and discussions will be incorporated while presenting the content in the class and laboratory session.
