

BIOL 101 : Anatomy and Physiology I

Anatomy and Physiology I ([BIOL101](#)) is a 4-credit course administered by the Department of Anatomical Sciences at St. George's University, Grenada. [BIOL101](#) is the first in a series of two introductory courses to Anatomy and Physiology, the other being [BIOL202](#). [BIOL101](#) begins with the basic anatomical terminology and building a foundation of cellular physiology, basic histology, and embryology knowledge. The course continues the student's introduction to the structure and function of the human body with a focus on the musculoskeletal, respiratory, cardiovascular, and digestive systems. The student's basic understanding of the Anatomy and Physiology of the human body will continue to develop throughout the delivery of the course. Students will continue to learn and apply their knowledge of Human Anatomy and Physiology to normal, healthy individuals as well as clinical correlations that are relevant to the health sciences.
