

PUBH 854 : Health Economics

The course will introduce students to the main concepts of the public health field and the critical links between global health and social and economic development. Students will get an overview:

- To provide an economics perspective for management decision-making
- To provide theoretical groundwork for the study of finance, accounting, marketing, and planning
- To enable them as future health care managers to play positive roles in the reform of health care.

The course will cover key concepts and frameworks but be very practical in orientation
